

OPPORTUNITY! For girls in grades 9-12

Save the Date! A fantastic opportunity for female students who think they might be interested in a career using math or science—there is also a separate program for parents given at the same time.

The Philadelphia Section of the Society of Women Engineers and Widener University are sponsoring a one-day Engineering Mini-Camp on Saturday, February 6 on Widener University's Chester campus. Girls in grades 9 -12 are invited to spend the day participating in hands on lab activities with volunteers from Widener's School of Engineering and from the Philadelphia section of the Society of Women Engineers. Laboratory sessions will include topics such as Roller Coaster Design, Tower Building, Bridge Design, Biomedical Engineering, Bioengineering, Water Treatment, Programmable Robots, Soils and Foundations, Electric-Powered Lego Vehicles, Reaction Kinetics, Aerodynamics and Flight, Pavement Design with Chocolate Asphalt, and Electric Sensors. More information and on line registration is available at:
