

Name: _____

Soaring into Third Grade

Here is a list of fun activities to do to get ready for third grade!

Pick one or two activities to do every week.

Math Activities

- a) Review basic addition and subtraction facts with sums to 18. You can use flashcards, play war, or roll dice. Be creative!
- b) In order to add and subtract money and make change, you will need to be able to identify coins and their value. Review this at a snack bar or a store.
- c) To prepare for telling time to the nearest minute, you will need to review telling time to the nearest half hour. Use an analog clock (not digital) and tell what time it is.
- d) Draw 6 people in a row. Then under the first person write the word "first". Under the second person write "second". Then write the words third, fourth, fifth and sixth under the people. The title for your picture is Ordinal Numbers.
- e) Make a word problem or story problem for the following number sentences:
 - $7+5 = 12$
 - $14-8=6$
- f) Use a ruler to measure a crayon, pencil, pen and marker to the nearest inch. You might need an adult's help.
- g) Go on a shape scavenger hunt. Look around your house or when you are on a trip for circles, squares, rectangles and triangles.

- h) Make a bar graph to show the temperature everyday for a week. You can use the internet to find the temperature or find a thermometer to read.

Summer Writing and Reading Activities

1. Write at least 8 sentences about things you want to do this summer. Number these sentences 1-8 with the most important listed number 1 and the least important is 8.
2. Write 10 sentences about things that make you happy... other than material things. For example: Having nice friends makes me happy.
3. Write a poem about the month of June. Illustrate your poem.
4. Use a dictionary (online or a book) and find the definition of the following words: beach, sand, vacation, summer, sun and camp.
5. Read at least 2 poems by the same poet. Pick the poem you like better and illustrate it.
6. Make a list of at least 10 objects that are OLDER than you. Prove to an adult that your list is correct. You may use the internet.
7. Use a map to locate 10 cities in Pennsylvania. Then list the cities in alphabetical order.
8. Go to the library and read a book about...
 - An animal
 - A famous person
 - Poems
 - Fantasy
 - Folktale or Fable
 - Science Experiment
 - History
 - A place or state you want to visit.
9. Write riddles about objects in your house. See if your family can guess.
10. Find a recipe for a healthy treat. Read the recipe with an adult. Measure all the ingredients and bake or cook!
